

July 2012 WAKO meeting Mukwonago, WI

WAKO's July meeting was held on the 15th along the shores of the Mukwonago River. We had a good turnout of about 25 people with a few new faces. We had our usual meeting with nothing out of the ordinary being discussed. The item that took the most time was whether or not WAKO should be on Facebook. I think after all was said and done- more was said than done! The highlight of the day was our annual picnic and a successful collecting trip. Our next meeting will be Sunday August 12th at the home of Barbara and John Metzger outside of Princeton Illinois. Here are a few photos of our picnic:

Craig Berg going in deep!

They're taking this stuff seriously!

Rob McLure actually did very well this way.

A nice Trap Door Snail.

It looks like a Rainbow Darter.

Fundulus Notatus

Not sure if this is a Pumpkinseed, any ideas?

We found this guy in the bushes - JK

Actually it was a pet that one of our newest members brought along.

Craig Berg makes a 3-sided trap with old window screens.

Looks like Frank Kray and Craig Berg are on the scent.

The crew working the shore.
